

## PARACANOE CLASSIFICATION STATUS

### ICF Paracanoe – International Classification status

**C (Confirmed)** status will be given if the paddler is classified by an ICF Classification Panel and the paddler's status is not likely to change.

**N (New)** status will be given if the paddler is not classified by an ICF Classification Panel.

**R (Review)** status will be given if the paddler is classified by an ICF Classification Panel and the paddler wears a prosthetic or orthotic device that may affect the paddling ability, or they have a progressive disability that may improve.

**RFD (Review with Fixed Date)** as above with a fixed date when the review will need to take place.

**OA (Observation Assessment)** status will be assigned to any athlete who is required to complete Observation Assessment during a competition and/or until the classifiers determine another status.

### British Canoeing National Classification status

**NC (National confirmed)** Indicates a classification carried out by National classifiers where no further classification is required according to the classification rules of the sport.

**NR (National Review )** Indicates an athlete who has undergone a classification and obtained a classification for national competition, however will require a classification review according to the classification rules of the sport.

**NRFD (National Review with Fixed Date)** as above with a fixed date when the review will need to take place.

**NE (Not Eligible)** Indicates an athlete who fails to meet the eligibility criteria for Paracanoe. This does not question the presence of a genuine impairment.
