

DRAFT Canoe Sprint Junior Selection Policy 2024

This policy has been developed following the establishment of the [Junior Selection Performance Advisory Group \(JSPAG\)](#) which brings representatives from clubs, communities and Home Nations together to propose the shape and direction of the junior selection policies. The Interim IP group have prepared the draft 2024 policy following the recommendations made by JSPAG and now share widely for public consultation.

The JSPAG and the IP proposals reflect the challenges of the timing of the International regattas, the dates of the domestic regattas and consideration of exams. Ideally the June regatta would provide the selection process for the Junior & U23 European and World Championships. Unfortunately there is insufficient time between the June regatta and the departure date for Europeans to complete the required preparation including bookings, appeals process etc. Therefore, the following recommendations have been made:

- *Selection to the European and World Championships will take place over separate regattas (April and June respectively) to ensure teams have adequate time to prepare for the respective Championships and to allow more athletes more opportunities to be selected.*
- *There will be opportunities prior to the June regatta for Junior athletes to engage in a GB Crew Boat Process. This has no bearing on final selection, but will give athletes opportunities to come together to form crews and will be advised by Home Nation and Club Coaches. The predominant focus will be on K4 formation, however in future seasons, the aim is to provide more opportunities for athletes to build both K2 and K4 crews to challenge for selection.*
- *Any athlete who is selected to the European or World Championships will automatically be selected for Olympic Hopes. This is to reduce the overall number of regattas athletes may need to attend to try and ease pressure during school exam times, however, there will still be additional opportunities for athletes to qualify via the July regatta.*
- *Selection to Olympic Hope from the July regatta will be from both C1/K1 and C2/K2 events.*

Consultation is open and runs until Midday on Tuesday 2nd January 2024 so please read and feedback on YOUR selection policies at the [link](#) or full link:

The Interim IP and JSPAG will consider the feedback from consultation in early January and aim to publish the final 2024 Junior & U23 policies in mid Jan 2024. Thanks for taking the time to read and feedback.

Introduction:

This year the racing calendar and policy has a multi-point selection that allows athletes to focus on selection for the competition(s) that they are targeting. The April regatta is a selection point for the European Championships and the June regatta for the World Championships. For those eligible athletes not already selected for the Olympic Hopes through selection to a 2024 championship team, the July regatta will be selection for the Olympic Hopes races. This allows athletes more choice on selection events to reduce the conflict between school exams and international racing and can use early season regattas for race practice in preparation for the selection regattas. There will be an emphasis on crew boat racing this year, and we encourage athletes to use all opportunities to develop crew boat skills. In recent years the Olympic Hopes competition has become a high quality unofficial age group World Championships. In response, we are changing our approach to selecting the team. This year the July regatta will be the sole selection point to select an U16 and U17 team, which will be based upon performances in C2 and K2 only. Athletes need to make sure that they do everything they can to keep injury and illness free and race at the relevant selection events. The IP will also be asking athletes to be clear on event priorities when contesting multiple events for selection.

All athletes wishing to be considered for Junior Team selection during 2024 should complete the online registration document by 6th March 2024 [here](https://britishcanoeing.formstack.com/forms/sprint_junior_selection_registration) or link:

Athletes wishing to contact the IP in relation to the relevant provisions in this policy should do so via email to enquiries.internationalpanel@britishcanoeing.org.uk

SECTION A: PURPOSE AND PRINCIPLES**1. Purpose**

The purpose of the Canoe Sprint selection policy is to clearly outline the processes which will lead to the selection of the GBR Junior Canoe Sprint Teams for all 2024 international events named within this policy. It also aims to support the longer-term goals of the sprint strategy to 2028 and 2032.

2. Principles

- 2.1. The primary focus of National Team Selection will be to optimise performance in targeted Olympic events and to support athlete development into high level senior performers.
- 2.2. The Selection Policy seeks to select the best athletes in a transparent way that prioritises optimal preparation time for achievement of international success.
- 2.3. Selection will be based on results in selection races and subject to an assessment of performance standards. All eligible athletes will be considered equally for selection against the stated selection criteria regardless of club, training location, age, Home Nation and programme status.
- 2.4. The Selection Policy provides opportunities to use unfilled event places for development opportunities.
- 2.5. Selections will be made in alignment to, and in support of, the Canoe Sprint Performance Strategy.

SECTION B. ELIGIBILITY AND PERFORMANCE STANDARDS**3. Eligibility**

- 3.1. To be eligible to be selected to any 2024 GBR Team, athletes/crews must meet the following conditions (full detail can be found in British Canoeing's [Eligibility Policy](#)):
 - 3.1.1. Meet age and nationality criteria for international competitions as outlined below
 - 3.1.2. Be a full member of British Canoeing or Home Nation Association that enables participation in competition
 - 3.1.3. Athletes on a funded programme need to have signed their Programme Athlete Agreement. Athletes outside Programme funding will also be expected to sign up to the British Canoeing Great Britain Team participation agreement on accepting selection at least two weeks before travelling to the first competition and settle any outstanding payments prior to travel.
- 3.2. Where athletes compete in more than one eligible selection event, the policy will be applied in isolation for each specific event.
- 3.3. British Canoeing reserves the right to deselect an athlete who has been found guilty of a disciplinary offence under British Canoeing/ICF rules. This includes doping offences.

4. International Eligibility

4.1. Selection will be subject to eligibility in accordance with competition rules laid down by the International Canoe Federation (ICF) and the European Canoe Association (ECA).

4.1.1. The first year a junior can compete at World and European Senior/U23/Junior Championships is the year of their 15th birthday.

4.1.2. The last year a Junior may compete in the Under 18 category is the year of their 18th birthday.

5. Performance Standards

The International Panel (IP), will apply a performance standard for all selections under this policy to ensure athletes/crews are of the appropriate level for the competition they are being considered for. The detail of the application of performance standards can be found in Appendix 1. The IP reserves the right to not apply a performance standard either at all or as prescribed in Appendix 1, where circumstances arise which in the IP's reasonable opinion would make the application of the performance standard at Appendix 1 unsuitable.

9.1 Subject to 9.3 the maximum team size will consist of up to 30 athletes in total (see table 4) which includes up to 6 Under 16 athlete places in each gender. This provides development opportunities for U16/15 Kayak Men and Women seeking international representation,

9.3 In the case, that there are more than 4 U17 kayak athletes in a gender gaining automatic entry via selection for the Junior Europeans and/or Junior Worlds team (section 9.2), the total team size can increase in order to prevent a reduction in the number of U16/U15 athletes eligible to attend.

Where 2 or more spaces are available in an age category, priority one events will be used to fill the spaces. Single spaces remaining available will be filled through priority two events. Any remaining spaces will be filled through priority three events. Unfilled female spaces will be filled by female athletes and Unfilled male spaces will be filled by male athletes up to the numbers outlined in table 4.

Appendix 1 – Performance Standard Data 2024 – International Panel Selection Guidance.

As per section 5, Performance Standards will be applied to all performances considered under the selection policy. This is to ensure a level of consistency to selections across classes and that all athletes are selected for the appropriate level of competition. Note that in an event where there are less than four boats contesting selection, the IP has sole discretion to select an athlete/crew based on available performance data.

The process for how performance standards will be applied:

1. The IP agrees the standard of the team as expressed as a minimum performance level. E.g., Ability to achieve a B final or better.
2. The IP collects all times from the relevant selection regatta and collates the % difference to World Leading Time for each event.
3. The IP collects weather information from the relevant selection regatta through the event.
4. The IP then uses available information to agree where the % of WLT will be set for that selection event, taking into account the above points.
5. The IP may adjust the standard applied to selections to reflect changing conditions during the regatta and the performance impact of conditions on different events.
6. The IP may adjust the standard applied for a particular event to reflect the most recent knowledge of performances within that event.

Whilst this process relies on objective data it is acknowledged that these decisions are ultimately subjective in nature.

The objective data used as guidance in decision making for the IP is shown in Table A and Table B below.

Table A shows the Senior, U23 and Junior WLTs and the % difference between the Senior WLT and U23 and Junior WLTs. A comparison of the % differences can be used as part of the process to understand the performance standards.
