

BRITISH CANOEING GOVERNANCE POLICY

BRITISH CANOEING - GOVERNANCE POLICY

1. Introduction

1.1 Good governance within British Canoeing requires there to be; a comprehensive and appropriate set of rules which define how and where decisions are taken, real clarity in roles and responsibilities and the proper utilisation of distinct skills and processes. This policy is designed to guide the Board (with its regularly changing membership) in these areas and to provide transparency in these areas of governance for others within British Canoeing.

1.2 This Governance Policy sets out the relationship between the Board, as the principal governing body within British Canoeing and the other key constituents within the corporate organisation.

1.3 This Governance Policy is designed to complement the Articles of British Canoeing and include further detail which may sometimes be included in Standing Orders or Rules of the Board.

1.4 In interpreting and applying this Policy there are some factors to be noted, which influence the activities of the Board and the operations of British Canoeing;

- i. British Canoeing is the recognised National Governing Body for paddlesports in the UK (Great Britain and Northern Ireland). In that capacity it receives funds not only from the members of canoe clubs or associations as defined in the Articles by way of affiliation fees, but also from UK Sport and Sport England and commercial partners to assist it to advance its Objects (established in its Articles) . This Policy is designed to meet best practice for the Board of such an organisation.
- ii. British Canoeing is a company limited by guarantee. It has no subscribed share capital and must maintain adequate reserves to enable it to be confident at all times of being a going concern in accordance with the requirements of Company law.
- iii. British Canoeing has limited resources to fulfil its Purpose and must utilise where appropriate a network of volunteers to assist in its activities in addition to an executive management led by the Chief Executive Officer (CEO).
- iv. The Board will ensure that British Canoeing adopts best practice in respect of all of its business processes and embraces the concepts of fairness, transparency, effectiveness, accountability, equality, and diversity.

2. Role and powers of the Members

2.1 The Members of British Canoeing are the Full Members of the organisation, who have been admitted to that status by the Board under the Articles. They may attend and vote at the General Meetings and Annual General Meeting of British Canoeing.

2.2 The purpose of the Annual General Meeting is for the Members to receive a formal report from the Board on its governance of British Canoeing over the previous year, to approve the appointment of members of the Board and other office holders and to attend to any other matters required to be considered by the Members under the Company law and the Articles.

3. Role and powers of the Board

3.1 The UK Corporate Governance Code published in July 2018 says that;

“A successful company is led by an effective and entrepreneurial board, whose role is to promote the long-term sustainable success of the company, generating value for shareholders and contributing to wider society. The board should establish the company’s purpose, values and strategy, and satisfy itself that these and its culture are aligned. All directors must act with integrity, lead by example and promote the desired culture.

3.2 This responsibility for governing British Canoeing, in line with the UK Corporate Governance Code and the Code for Sports Governance, has been delegated to the Board under the Articles of British Canoeing. The Board will carry out this task in a manner that will enable British Canoeing to achieve the Purpose in a structured and planned manner and is accountable to the Members for its performance in this respect.

3.3 The Board has the responsibility to set the Company’s strategic aims, ensure that the necessary financial and human resources are in place for the Company to meet its objectives and review management performance. The Board must provide leadership for the Company within a framework of prudent and effective controls which enables risk to be assessed and managed. The Board should also set the Company’s values and standards and ensure that its obligations to its stakeholders and others are understood and met.

3.4 The Board is responsible for the direction and oversight of British Canoeing on behalf of all of the Members of the Company (as defined in the Articles) and is accountable for all aspects of British Canoeing’s activities including the allocation of resources to and the operation and servicing of the Committees established under the Articles. The Committees create a structured link for the involvement of volunteers in the operations for defined functions set out in the Articles.

4. The Reserved Powers of the Board

4.1 The Directors reserve to themselves the powers and authority as set out in Appendix 1.

4.2 If the Board is called upon to make a decision on any individual matter it will endeavour, so far as is possible, to determine the policy framework relating to that matter prior to making a decision to ensure consistency of approach.

5. Role of the Chief Executive Officer

5.1 The CEO is appointed by the Board to lead an Executive team and the non-executive committee structure and to manage the operations of British Canoeing in accordance with this Policy.

6. The Board: Authority and Delegation to the CEO

6.1 The role of the Board is part-time, non-executive and volunteer in nature. The Directors have limited time and necessarily must focus on those tasks that are required of them and that they are best equipped as a group, to carry out. It is therefore appropriate that this Policy should state in a structured manner those tasks that the Board reserve to themselves and those that they delegate to the CEO. This Policy also defines the Board’s processes for monitoring and controlling that delegation.

6.2 The delegation from the Board to the CEO is based upon the Values, the medium term strategy (the Strategy), the annual plan (the Annual Plan), the policies and procedures required of good governance and the risk management plan. The Strategy and Annual Plans shall incorporate the 4 year and annual plans for the work of the Committees and the 4 year and Annual budgets.

6.3 The CEO will review on an 4 yearly basis with the Governance and Risk Committee a Values statement (the British Canoeing Values Statement) setting out the principles upon which the operations of British Canoeing will be conducted by all persons involved in the organisation's activities, whether as a volunteer or an employee. This will be presented to the Board for approval.

6.4 The Strategy will provide a framework for the development of the organisation on a rolling four year basis. The CEO will each year propose and the Board will approve the Strategy and the Annual Plan. The Annual Plan for the next year will be approved towards the end of the previous accounting year.

6.5 The Strategy, the Annual Plan and the Values Statement will be actively promulgated throughout the organisation by the CEO and Executive team.

6.6 The CEO is authorised to establish any policy, make any decision, enter into any obligation, take any action and develop any activity to implement or advance the Strategy and the Annual Plan and which:

- Is not within the powers that the Articles has specified may only be exercised by the Members or the Board or that the Board has reserved to itself
- Is within a reasonable interpretation of the Executive Limitations and the British Canoeing Values Statement.

6.7 The CEO is accountable to the Board for the exercise of any authority delegated to the CEO and the Board will monitor directly or through the Board Committees all aspects of the CEO's use of such authority. In carrying out its monitoring work, the Board will satisfy itself directly or by report from the relevant Board Committee that:

- There are in operation throughout the organisation, the rules, codes, policies, and procedures specified in the Articles or required within a code of good governance
- The material risks to the success of the British Canoeing's operations and its reputation are being identified and understood and that systems of risk management, compliance and control are in place for their mitigation.

6.8 The Board may at any time change the authority of the CEO or of the Board Committees and in particular, may change the Purpose, the Reserved Powers and the Executive Limitations. However, so long as any particular delegation of authority is in place, the Board will respect and support the decisions and judgement of its delegate within the proper exercise of such authority.

7. The Board: Limits on Executive Action and Delegation

7.1 The Board places, through these Executive Limitations, the limits on the practices, methods, conduct and other means by which the CEO may carry out the authority delegated within this Governance Policy.
